OVERVIEW

Similar to the group work we did in class on Tuesday, September 16th, take one of the excerpts listed in the "Exercises" section on pages 78-82 of your textbook and answer the five questions listed at the beginning of the exercises. In other words, you will do exactly the same thing we did in groups, only:

- individually
 - in short essay format (that is, address all of questions in a single essay)
- and
- you can't work with the same excerpt that you worked with in a group. Pick another one.

Your document should:

- Be in a short essay format, with an introduction, body, and conclusion of some sort.
- Be at least 750 words, although it is likely that you will write more.
